PROFESSIONAL SUMMARY

Sophomore at Purdue University studying Integrated Business & Engineering with a minor in Finance, training to work at the intersection of business strategy and technical execution. Interests span market research, data-driven analysis, and leading cross-functional teams from problem definition through implementation. Seeking opportunities to solve complex client challenges, where structured problem-solving and fluency in business and engineering can be applied.

DESIRED COMPETENCIES

- Client Communication: Translating complex technical concepts into clear, persuasive messages for business leaders.
- Cross-Functional Leadership: Aligning engineering, business, and operations stakeholders around shared priorities.
- Research & Analysis: Market sizing, competitive landscaping, and quantitative analysis to support decision-making.
- Structured Problem-Solving: Scoping ambiguous problems, deconstructing into workstreams, and delivering outcomes.
- Technical Fluency: Engineering and product background that grounds strategy in what is actually buildable.

EDUCATION

Purdue University, West Lafayette, IN

Class of 2029

- B.S. Integrated Business & Engineering, Minor in Finance | Dean's List, Semester Honors (Fall 2025)
- Coursework: Business Analytics, Engineering Design & Systems Thinking, Financial Accounting, Statistics
- Certifications: Oracle Cloud Infrastructure Foundations Associate; AWS Cloud Essentials

SKILLS

- Leadership: Cross-Functional Team Leadership, Project Scoping & Prioritization, Resource Allocation, Stakeholder Management, Vendor Sourcing
- Analytics & Business: Dashboard Reporting, CRM Segmentation, Market & Competitive Analysis, Content Analytics
- Engineering: Fusion 360, PCB Design, Design for Manufacturing (DFM), Rapid Prototyping, 3D Printing, Electronics & Sensor Integration
- Tools: Canva, DaVinci Resolve, Palmier Pro, CapCut, Gemini, Claude, and other creative & AI tools
- Programming: Python, C++, Arduino (C/C++), HTML

LEADERSHIP & EXPERIENCE

SeedlingLabs | Marketing Strategy & Operations / Social Media Consultant

May 2026 – Present

Promoted from Marketing Intern to Marketing Strategy / Social Media Consultant. Own content strategy for three (3) AI products, running CRM segmentation, cross-functional pre-sales logistics, and the sales collateral the team carries into live client conversations. Delivered a 54% increase in organic audience growth, an 84.9% lift in average LinkedIn post views, and a 25% rise in Instagram followers in a single month with no paid spend, while sourcing eight (8) sales-qualified leads and converting three (3) to demo stage.

Purdue University, Department of Sociology | Undergraduate Teaching Assistant

Aug 2026 - Present

Teaching Assistant to support two (2) upper-level courses, an appointment usually given to upperclassmen.

Sustainable Energy Club, Purdue University | Chief Technology Engineer

Apr 2026 – Present

Serve as Senior Technical Lead on the club leadership board, reporting to the club head and directing a 100-member build team across all technical operations. Own technical planning for 5 concurrent initiatives spanning hydroelectric, wind, solar, incubation center, and farmers market programs. Drove a Geiger counter from concept to working 3D-printed prototype through 3 design iterations and a PCB revision.

We Are Saath, Purdue University | Director of Events

Jun 2026 – Present

- Own the fall event calendar, with 4 events scoped to date; handle vendor sourcing, scheduling, and coordination across student teams.

Chick-fil-A and Purdue Dining | Concurrent Employment*Oct 2025 – Aug 2026 (~1 year)*

- Work regular shifts while balancing a full IBE course load, maintaining Dean's List standing.

Mackers.com | Product Development Intern*2023 (3 Months)*

- Programmed and tested Arduino controls for a smart lighting product; integrated proximity and light sensors and compared IR options on cost and performance, moving it beyond timer-only operation.

PROJECTS

- Solar Aquatic Weed Harvester: Led design and build of a solar-powered autonomous harvester integrating Arduino control, LiDAR navigation, blade cutting, biomass compression, spiked conveyor transport, and drainage.
- Automated Waste Disposal System: Designed and built a mechanical waste-handling prototype for the World Robot Olympiad, focused on efficiency, containment, and scalable deployment.
- 4-DOF Robotic Arm: Designed and built a tendon-driven arm in Fusion 360 using Arduino, servo motors, and timing belts, with motors pulling polymer wires to drive finger actuation.

HONORS & AWARDS

- World Economics Cup (2024): Placed 8th in the Asia-Pacific region; awarded an individual Bronze certificate.
- International Economics Olympiad, IEO (2024): All India Rank 144.
- World Robot Olympiad (2024): Ranked 5th regionally and 38th nationally for an automated waste disposal system.

ACTIVITIES

- Published Author: Wrote a full-length novel and published a short story adapted from it, carrying a long-form project from draft through editing to release.
- Founder & President, Debate Club, 10X International School: started the club from scratch and coached 20+ students in argumentation, rebuttal, and public speaking (2024 – 2025).
- Board Member, Cricket & Social Outreach Club, Purdue: run tournaments and events (Spring 2026 – Present).
